

up to 83% Water Saving

Patented Venturi Vacuum Flow technology
saves water without sacrificing performance

QUALITY FAUCETS AND PLUMBING PRODUCTS

SPECIFICATION SHEET

BUILDERS SERIES SINGLE HANDLE LAVATORY FAUCET

DESCRIPTION

ecotap *Builder Series* Lavatory Faucets are the favorite among builders and plumbing contractors for two reasons: quality, value and water savings. Competitive price doesn't mean forgoing quality. Every faucet is inspected and tested to the strictest of ecotap standards to guarantee enduring usage. With dependable stainless steel ball functionality, ADA compliant lever and loop handles, brass body construction, copper tube waterways, the *Builder Series* not only saves builders on construction costs, but also gives them ease of mind.
