fluid

A close-up photograph of a green leaf, showing the intricate network of veins. The leaf is the central focus, with its vibrant green color and detailed vein structure clearly visible. The background is a soft, out-of-focus green, suggesting a natural, outdoor setting. The word "natur" is overlaid on the leaf in a light, semi-transparent font.

art

A photograph of a row of ancient stone columns, likely from a classical building, set against a clear blue sky with a small, wispy white cloud near the horizon. The columns are made of light-colored stone and show signs of weathering. The word "architecture" is overlaid in a large, light blue, sans-serif font across the middle of the image.

A modern bathroom interior. On the right, there is a glass shower enclosure with a wooden vanity unit. In the center, a shower curtain hangs from a metal rack. On the left, a chair with a metal frame and a light-colored seat is visible. The background shows a white wall and a window with a view of a landscape.

Nature, art and architecture:  
each fluid™ faucet design makes  
a subtle connection to the  
influences of our environment.

Innovative fixtures for life™

The fine craftsmanship and attention to detail make a unique statement about the care and extra time we dedicate to every fixture. The meticulous curves, unique angles and mirror-like polished surfaces of fluid™ faucets are unmatched. fluid™ faucets have the heft and mechanical action that exudes the quality and integrity of the materials we use. While others substitute plastic, we continue to use brass to ensure our lifetime warranty means something – and that is good for the environment. fluid™ faucets are WaterSense™ certified which means they meet standards for water efficiency set by the Environmental Protection Agency.
